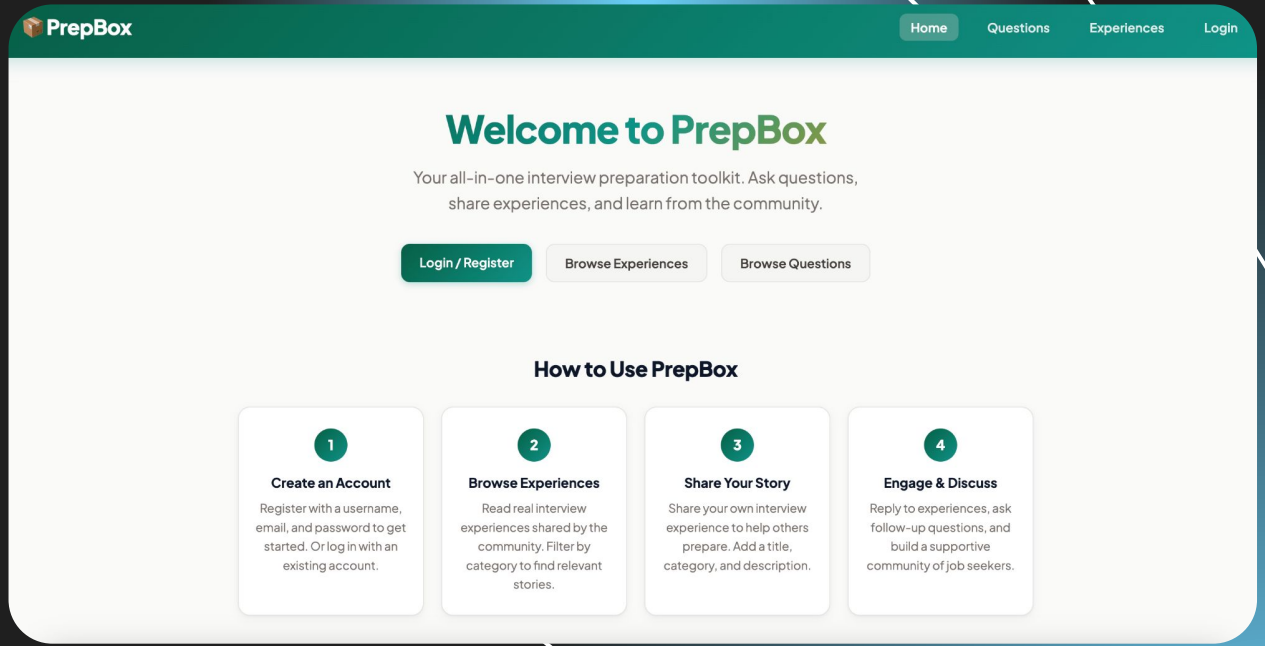
# Project 3
# PrepBox

By Helly Niteshbhai Diyora & Lili Mei Ye
CS 5610 - Web Development - Spring 2026
Northeastern University

# Project Overview

## What is PrepBox?

- A community-driven interview prep platform
- Users can:
  - Share interview experiences
  - Browse interview questions
  - Interact with others (reply, like the posts)



# Technology Used

- Frontend: React (Hooks)
- Backend: Node.js + Express
- Database: MongoDB Atlas
- Deployment: Render

# User Personas

### Maria (Student preparing for interview)

- Wants to practice interview questions
- Learns from others' answers and experiences

### Jason (User sharing interview experiences)

- Shares interview experiences
- Interacts with community by replying

### Jessica (Career switcher)

- Exploring a new industry
- Learns from real interview experiences

# Key Features

## Core Features
